

Industry Expert Evaluation Form

CSE 438: Robotics Lab

Capstone Project : Survey 2 (Post-Implementation Validation)

Project Title: Autonomous Human-Tracking Smart Trolley

Name of Expert: MD. Rashad Yaqub Khan

Organization / Industry Sector: Retail Industry (Unimart)

Contact No.: 01829681746

Email: rashadyaqub22@gmail.com

Please evaluate the completed project based on the following criteria:

Criteria	Very High	High	Moderate	Low	Very Low
Successful implementation of proposed objectives			✓		
Functionality and working performance of the system		✓			
Reliability and stability of the system		✓			
Efficiency (time, power, cost effectiveness)			✓		
Scalability and potential for real-world deployment	✓				
Safety considerations and risk handling		✓			

Project Validation:

- ☒ The project has been successfully implemented as proposed.
- ☐ The project is partially implemented and requires improvements.
- ☐ The project implementation is not satisfactory.
